Built for the great indoors

Our NEW Slider24 sliding patio door is a star in a commodity market. Deceuninck is about innovation, performance and looks, so our challenge to our designers was to develop a sliding patio door installers would love to sell and homeowners would love to buy. A patio door that would leave competitors standing.

We demanded the best in weather and energy performance, strength and security. We wanted outstanding performance and stunning looks to match our famous pretty windows. With Slider24 we got everything we asked for.

We now have a door that ticks all the boxes.

No. 1 For Colour

Colour Express is a unique range of foil colours in 18 colourways for our full suite of windows and doors, helping homeowners choose the perfect colour palette for their home. Complete with colour matching ancillaries, trims and accessories windows and doors have never looked so pretty.

Supplied from stock, everything – windows, residential and composite doors, the Slider24 patio door and Slide & Swing – door – arrives together to minimise inconvenience and disruption.

COLOUR *express*

The Heritage Colour Collection

The Heritage Colour Collection is our new range of six premium woodgrain colour foils, available on our full suite of Heritage 2800 windows and doors. Beautiful White Woodgrain inside as standard with the option of English Oak and White Woodgrain on the outside, or English Oak inside and outside.

Supplied from stock, your colour windows and doors arrive on the same lead time as white. Choose from eight colourways, all with matching ancillaries, trims and accessories for a perfect match.
